The New XL Girls: What We've Been Waiting For

Dear XL Girls,

Congratulations on making XI. Girls with all-new photo sets. This is what we plumper lovers have been waiting for. And more praise for starting the "Weighing In" forum. At last, an outlet for plumper fans to discuss all aspects of our passion.

You asked for our favorite poses. For me, the most exciting poses are the side and front views of a model on her hands and knees with her jugs hanging...a view that shows how full a model's boobs are.

The photo sessions that start out with clothes on the model are terrific. Good examples of such photo sets are Kimmy Nipples, Gina LaMontana and

Julianne in XL Girls #89.

Seeing my favorite

plumper clothed allows me to envision how the phimp woman I see in everyday life would look totally naked.

As far as the models using dildos, it's okay but not necessary.

How-ever, even

though I'm not a big fan of dildo scenes, watching Cassandra and Kerry Marie go at it with a double-headed dildo in the On Location Costs Del Sol DVD was incredible.

Girl-boy is okay, but, again, not a major stimulant for me. I prefer the model by herself.

Another favorite scenario is girl-girl action. There's nothing more appealing than seeing two or more big-breasted women enjoying each other's breasts. On Location Costa Del Sol has great girl-girl action. And I do get very excited watching big-busted women eat pussy.

On to some observations:

Sweety is so sery in the XL Girls
Home Alone DVD. Watching Sweety
take a bath is my idea of heaven. I'm
looking forward to purchasing the XL
Xtm #3 DVD so I can watch two of my
favorite plumpera, Sweety and Lulu,
tit-suck and eat each other's pusaies.

 Laura Bailey was great in the XL Girls Home Alone DVD. Her body is great in motion. Her luscious jugs are eye candy. And she has a big, sery butt.

 Thadn't thought about Kerry Marie being a plumper. But upon comparing her photos now to her photos a few years ago ("Plumping Up," XZ Girls #92), you're right. She has gradually entered the plumper ranks. No complaints, though. Kerry looks better than ever with the extra pounds. Let her know that her fans highly approve of her weight gain. Here's hoping Loma Morgan will join her friend in gaining some pounds.

The best butt in #89 is Chanta's.
 She has a cute face to go with her nice set of low-riding tits. Most importantly,
 Chanta has the best butt in all of the XL kingdom. Her very wide hips provide

Kerry Marie *(XL Girls #*92) has undoubtedly joined the plumper ranks since putting on 20 pounds.

Julianne (above) looked great in and out of clothes in XL Girls #89. And Chanta's ass-tounding rear made her the issue's big-butt star.

Like many plumpers, Tammy (#89) wondered if anyone would want to see her naked. Reader P.B.'s answer: "Yes!"

plenty of room for a humongous rear.

And her thunder thighs are speciacular with no cellulite. She's right when she says her drawing card is her big butt. I would be a very happy man if my face was buried in her butt.

Sapphire, who appeared in #79, is outstanding in the DVD Stacked & Packed #5. The scene in which she is laying on her back and using her hands to play with her cunt is spectacular. It's unbelievable how her books bounce around without her body bouncing.

• Lastly, here's my note of encouragement for Tammy (189). Tammy, you certainly belong in XL Girls. Your beautiful face compliments your captivating curves. Your deep, cavemous cleavage provides a beautiful view. The size of your buge, erect nipples is something rare. Tammy, I wonder if your nipples remain that size all the time. What a tantalizing thought. So please, Tammy, pose for some more pictures. You have many fans eagerly waiting for you to appear in XL Girls again.—PB., Kalamazoo, Michigan

Dear P.B.: Thanks for the good word and your varied comments. You'll be happy to know that you're going to get another look at Chanta's prodigious 50-inch hips in this issue's "Thunder Cheeks" special, beginning on page 51. Her was is truly a marvel of engineering.

Brainless, Dickless, Dumb Shit of the Year Award

Dear XL Girls,

I was so pissed off after I read what Leura Bailey's ex did to her that I almost bought a plane ticket to London to straighten this burn out myself. That guy needs to pull his head out of his are and get an EKG while he's at it. That anyone couldn't think Laura Bailey isn't one of the finest examples of the female species is either brain dead, dicklass or both.

Laura Bailey (XL Girls #99) is one of those girls who we don't see enough of, but when we do see her, we have a hard

time keeping our hands off our dicks. Especially now since she's put on a few pounds and is looking more and more like an XI. Hall of Famer. Too bad she wasn't in the running for Plumper of the Year. I bet she'd have given all the other girls a run for their money.

I have an idea, though. Let's have a Dumb Shit of the Year Award, and we'll give it to Laura's loser ex-boyfriend.

Now, having said that, I am using this opportunity to vote for Devin Taylor for Plumper of the Year. I can't stop thinking about her big legs and ass.-C.Z., email address withheld

Why Is Kimmy Lonely? Dear XL Girls.

I just wanted to write and say that I enjoyed the pictorial of Kimmy Nipples (XL Girls #89), I enjoyed looking at her

as well as reading what she had to say. The thing that intrigued me the most was the fact that she said she never gets asked out. I know as a lover of women like her, I wouldn't pass up the opportunity if I bumped into her anywhere or just saw her wherever. She is the perfect woman to look at, and she seems like she is a wonderful person.

So pass a message along that if she wants to take a chance and see how she should be treated, drop me a note. I would love to ask her out and show her the perfect evening.—Anthony, email address withheld

A Cassandra Update

Door XL Girls,

I saw your XL Legends pictorial on Cassandra (XL Girls #89) and the big question, "Whatever happened to Cassandra?" I can tell you.

I met her in Detroit when she was working as a house dancer at a crummy place downtown in 1993-1994. She stood out from the pack. Those tits, that ass. I had her give me a lap dance and paid her double her standard rate. We hit it off immediately.

I didn't see her layouts until months later. She told me that she was married with one five-year-old daughter. Her husband wasn't too successful. He was 43 years old and a musician. She lived in central Michigan and commuted 75 miles each way to dance.

We fooled around on many of my visits (as much as we could get away with at a topless place). Sometime in early '94, she told me she was leaving

Just bought XL Girls #89, and what a mag! Laura Bailey looks yummy. As a fellow Brit, I'd love to meet har. Her exboyfriend must be blind and stupid.

Angel, too.
As for Deja, there are no

Kimmy Nipples looks swesoms. I

can't believe she is single. Also, I'd like

words to describe that awasome body.

who combines a bodacious

body with a fabulous face.

Some suggestions for future issues:

1. Any chance of the girls starting off fully dothed more often and then doing a striptease? That would be more of a prick-tease.

2. This is probably too kinky for your mag, but any chance of having more big girls on top of men, particularly on their faces and smothering them? That's a favorite position of mine. It would require a big-assed woman like Samantha or Wonder Tracy I would be a lifelong fan if you could show pictures like these. Col. email. address withheld

Bodies...And Faces, Too!

Dear XL Girls,

XL Gals #89 may be the best issue of either Voluptuous or XL I've seen. The girls in both mags have awesome ures-boobs, asses, thick legs, etc-but I don't think they get enough credit

for how drop-dead gargeous they are.

Case in point: Kimmy Nipples, along with the killer body, has an angelic face and tawny blonde looks. Samantha, Kerry Marie, Maria Moore and Linsey Dawn McKenzie all have devastating bodies with gorgeous faces. I can imagine a beauty contest on prime-time TV with these curvy beauties. All I know is, I'd love to be a judge!-E.J., email address withheld

Sweety: Never Enough

Dear XI. Girls.

I really dig Chanta (XL Girls #89) and her lovely ass. Next time, show a picture of her in some tight jeans, then with a thong and then a straight-on

doggie-style pose.

Lalso dig Kimmy, but I'm less a fan of Angel (a little too fat) and not much of a fan of Mandy. The one I really love is Sweety. Let's see some more of her in upcoming mags and videos. There's something incredibly sexy about her.-Name and email address withheld

Pushing The Envelope

Dear XL Girls.

I hope XL Girls having a letters departments means it is one

step closer to becoming a monthly magazine.

I am always fascinated by the sheer beauty of the big women XL Girls brings us. As a fam of big women, however, I fear that you may be leaving behind many big women who are willing to pose but don't have such beautiful faces as Samantha, Candy Kane, etc. Does XL Girls have a treasure trove of rejects to share with us readers? We could vote on them, and you could bring them back for full layouts.

How about pushing the envelope a bit and

Deja's bountiful body and sexy looks are the epitome of XL Girls perfection.

This Guy's No Angel Doar XL Girls.

Liston, I like my ladies big, but there has to be a limit. Angel (XL Girls #92) is nothing but a shapeless, fat blob who appeals only to men with very extreme tastes in women. I mean, that half-page shot of her butt is disgusting. It looks like she's growing a second ass.

Angel looks like a pretty woman, and I'm sure she'd be very sexy if she lost about a hundred pounds. Oh, one more thing? You say that her weight is 230 pounds? I'd say she's closer to 300.-J.H., Calgary, Alberta

A Man With Extreme Tastes In Women

Dear XI Grels.

Thank you for delivering my Angel to me (XI Girls #89). What a complete beauty! What's special about Angel is that even though most people in society would look down upon her she isn't afraid to show her beautiful body and express her sexuality. I hope to see many more Size XXXI girls in the future. and I definitely hope to see more of Angel-A.R. Tacoma, Washington

showing us a wider range of bigwoman sexuality? How about pregnant big women? Pregnant big women pissing? Pregnant big women in hardcore sex? Anal sex? Face sitting? Foot sex? Big women do everything their skinny sisters do, but big women just look better doing it. Poll your readers. Ask them if they would like to see older big women, perhaps with a few stretch marks or other "imperfections" but who are still store-cold knockouts.

Yep, XL Girls needs to go monthly ASAP. I'd be willing to pay \$8.99 per issue, just like I do for SCORE. After all, shouldn't we expect to pay more with XL since we get more?—A.L., Los Angeles, California.

Dear A.L.: To answer your first question, no, we don't have an archive of "rejects." We go to a lot of trouble in selecting the girls who will appear in XL Girls, and by the time we start taking pictures of them, we know they're up-to-par, if a girl sends us her photos and we decide she's not up to XL Girls standards, we return her photos.

As for pushing the envelope, we'd like to hear what other readers think about the topics you mention. How about it, guys? Do you want to see pregnant plumpers having hardcore see?

Regarding the possibility of XL Girls going monthly...that's something we've discussed, but so far, there are no plans to increase the frequency of the magazine from the quarterly it is now. The introduction of "Weighing In" wasn't meant to be a first step towards XL Girls going monthly. It was a response to the volume of mail we receive from XL lovers who want to voice their opinions. The size of this issue's letters section, our biggest yet, indicates that you guys have a lot to say.

XL Girls #92: Flesh Factory Dear XL Girls.

I just picked up my copy of XL Girls #92, and although I've only had time to flip through it once, it looks like you might've finally gotten it right when it comes to what a phimper really is.

Issue No. 89 was good except for Casey Cleavage, who in my opinion is too skirnty for XL Girls, but No. 92 didn't have a single non-plumper, although I still think Susie Wilden could afford to pack on a few more pounds. Flipping through the issue, all I see is flesh, flesh and more flesh. Congratulations on a great job.—L.S., Mexico, New York

The Readers Debate: Plumper of the Year

Editor's Note: In this issue, beginning on page 16, we'll crown the first XL. Girls/Voluptuous Plumper of the Year, the following is a cross-section of letters we received from readers and voters regarding the finalists.

Dear XI Girls,

I think it's great that you're starting a Plumper of the Year contest, but I think it's a mistake to combine the award with Voluptuous magazine. As we all know, XL Girls readers prefer bigger, plumper girls, and tits aren't everything. Asses count for a lot, too.

For example, if the award was XL Girls Plumper of the Year, I can't imagine that great girls like Laura Bailey and Evzenie wouldn't have been in the running. Also, how about Ansstasia?

I would love to see XL Girls set itself apart completely from Voluptious and become truly its own magazine. Creating an exclusive XL Girls Phumper of the Year award would be, in my opinion, a gigantic step in that direction.—E.W., Phoenix, Arizona

Dear E.W.: Laura Bailey wann't a finalist for Plumper of the Year because she didn't appear in XL Girls or Voluptuous during the 12 months prior to the choosing of the finalists. Regarding giving XL Girls its own Plumper of the Year award separate from Voluptuous, have patience, good man. In 2005, we'll crown the first exclusive XL Girls Plumper of the Year. By the way, gentlemen, what do you think about crowning a Newcomer of the Year, too?

Dear XL Girls.

What a lineup for Plumper of the Year! Too bad you didn't separate the newcomers from the girls who have been around for a while. Then the beautiful new plumpers like Devin Taylor and Maria Moore would've had a chance against such super-plumpers as Sweety, Depa and Samanths.

To me, Sweety is everything an XL girl should be pretty and super-plump in all areas. Huge tits, huge, fuckable ass. Enter my vote for Sweety.—Name and email address withheld

Dear XL Girls.

When I saw that you were having a Phomper of the Year contest, I got all ready to vote for Evzenie. You can imagine my disappointment when I

The answer is yes, of course. But just in case you needed more proof—and because we think it's fun—here are 44–34–40 plumper superstar Kerry Marie and 34–24–34 walf Missy side by-side. Now, Missy's a very nice girl. Sexy, too. But the power of the plumper is uddenly underliable.

2003 PLUMPER OF THE YEAR

The results of our first-ever contest to crown the top plumper in the world are in!

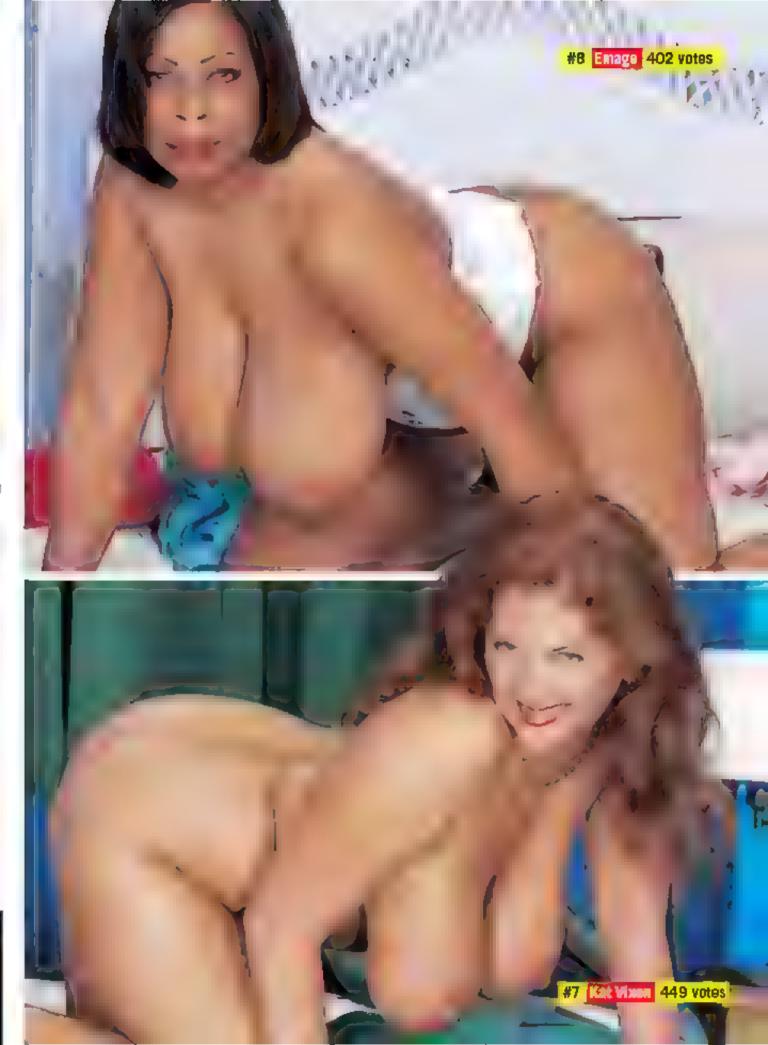

NEARLY 15,000 VOTES WHILE CAST. BY ANY MINSUR, All of these girls are Winners.

And you'd die to have any of them in your bed, wouldn't you? Certainly the 10 finalists for the first annual XL Girls/Voluptuous Plumper of the Year are as impressive a group of women as you'll ever find. As reader T.R. from Brooklyn. New York said. "Having to choose a winner from among these 10 girls is one of the hardest things I've ever done. And I do mean hardest!"

The final group of 10, as originally selected by the members of XLGirds.com, then voted on by you is a wide cross-section of both gais who made their XI. Girls magazine debuts in 2003 and beloved veterans. For example, on this spread, we have Sarah Mercury, two-time XI. Girls cover model. And Maria Moore, one of the top newcomers of 2003 (we interviewed her in #92). And Brit-beauty Kerry Marie, the long-time Voluptuous favorite who packed on the pounds to become a true super-plumper. In all honesty, the oddsmakers here at XI. Girls had made Kerry Marie the heavy favorite to win Plumper of the Year.

Only 749 votes separated the top five finishers in the voting. At various points over the final two weeks of voting. Kerry Marie. Suste Wilden and newcomer Devin Taylor each had the lead to themselves. But when all the votes were counted, a babe who represents what XI. Girts is about in every way was the choice of the readers of XI. Girts and Voluptuous.

And the winner is...

"I'm so excited! I've never been first in anything before!"

Well, Samartha now you're first in the world of bigtitled plumpers. and you re first in the hearts of XI. Girls readers, So. because you deserve it, we re going to let some of the 2 783 men who voted for you. pay homage to your greatness. "Samantha is more than just Plumper of the Year " wrote E.S. from Fulton, New York, "She's Plumper of the Decade " Added T.L. from San Jose California "A, of the finalists were great, but Samanthe is the greatest She has the face of a beauty queen and the Kind of body even my wet dreams haven't a lowed me to magine." Declared A.T. from London, England. "My heart tells me to vote for one of the British girls My head and my cock te me to vote for Samantha, the Queen of Ail Plumpers. Her XXX performance n XL Xtra #3 c inched it for me She's the sexiest XL girl ever " Here, here!

"Maybe we should-" I cleared my throat. When I had used Gloria to arrange the date with Amanda, I hadn't expected any fringe benefits." Pay the check and. "

Without moving her gaze from mine, Amanda took the entire length of my finger into her mouth, then slowly pulled her face back until my finger slipped from between her lips.

Nice hands," she said. "Big and

strong and tasty."

She still held my right hand in hers, so I motioned for the waitress with my left. I requested the check, then returned my attention to Amanda.

Amanda had a second-floor apartment only a few blocks from Sichland Mall, and we made it there in less than ten minutes. She unlocked her door, pushed it open, and stepped inside. I followed her. After she closed the door, I took Amanda in my arms and pulled her tight against me, feeling her belly press against mine and her breasts flatten against my chest. I covered her full, moist lips with mine, and we kissed a deep, penetrating kiss. She tasted of red wine, garlic and lipstick wax. When our lips parted, she stepped back.

"What's that?" she said.

I opened my jacket to reveal my leather shoulder houster and the butt of my .38

You're not a cop, are you?" Amanda

said. "Gloria told me you had your own business."

"I do," I explained. "I'm a private investigatoc."

Amanda started to laugh, then covered her mouth with her hand. "I'm sorry," she said, "but what is there for you to do in Waco?"

"Divorce cases, insurance fraud. repossessions," I said. Tracking down bail jumpers I kept to myself "Whatever pays the bills."

Amanda stepped forward and pressed herself against me, her soft flesh molding stack to me through the material of our clothing. "Must be exceine," she said.

I placed one finger under her chin and lifted her face. Before kussing her again, I whispered, "Yes. But not as excelling as you."

We kissed again as our fingers fumbled with belt buckles, buttons, zippers and bra hooks. We stepped out of our shoes and left a trail of discarded clothing down the hall and into Amanda's bedroom. She was naked before me, soft and round and mulky white. Her massive melons rested on her ample belly and were capped by pink rapples as thick as 38 shells and pale, palmsized areolae constructed with desire.

Amanda set on the edge of her bed and reached out for me, then took my hand and pulled me close. She spread

her thick legs so I could stand between them, took my cock in her hand, leaned forward and took the head of my cock into her mouth, covering it with her saliva as she washed it with her tongue She awallowed my shaft an inch at a time until I felt her hot breath on my pubic hast. Then she drew back.

reached down, placed my hands on the back of Amanda's head and felt her soft, blonde has between my fingers. She took my cock all the way into her mouth again and then drew back. Then again. When she released her oral grip on my rigid rod, the looked up and said, "Puck me."

pushed her back on the bed and grabbed her ass cheeks. The warm, pale flesh oozed between my fingers as I lifted her off the mattress. When I'd moved her pusey to just the right height, I drove forward, parted her pussy lips with the saliva-slick head of my cock and buried myself deep inside her hot twat. She hooked her ankles behind my back, and I fucked her hard. and fast. Her round belly and her massive tita rocked like gelatin.

Amanda's entire body suddenly stiffened as if she was about to come. and I continued pumping into her until I couldn't hold back any longer. I buried my cock in her one last time and fired a thick wad of spunk deep inside her throbbing pussy as she came, too

I cupped Amanda's are until my cock stopped spasming and softened enough to slip free. Then I crawled into bed beside her and held her spoon style with her soft ass cheeks pressed against my crotch and my hands wrapped around her so I could hold her massive. masses in my hands. I teased her supples between my thumbs and forefingers, keeping them firm, and before long, my cock regained its former stature and presed against Amanda's ass crack.

She lifted one leg and reached between her thighs, grabbed my cock and guided it between her thick pussy aps. After the head of my dick was mside of her, I thrust forward, burying the full length of my cock in her hot box. I fucked her hard. The cheeks of her ass slapped against my firm abdomen as I pumped into her.

Amanda reached down and stroked her clit with her middle finger. I felt the up of it rub on the underside of my rigid rod as I continued thrusting in and out of her. She came quickly. Her

entire body shuddered. Her free hand gripped the sheets, and then I came, filling her hot box with my cum for a second time within an hour

This time I was spent, and we lay together, breathing hard, not speaking. After Amanda fell asleep, I slipped from her bed and worked my way through her apartment until I found her brother's first name and a Gatesville phone number penciled on the back of her telephone directory. I copied the information into a small notebook, then searched for another 20 minutes until I heard Amanda stirring in the bedroom. I hurried to the bathroom, urinated and flushed

"You're not leaving, are you?" she said when I returned to the bedroom

"I wasn't planning to," I said.

She flipped back the covers, revealing the full splendor of her Rubenesque form, and said, "Good, because I'm not done with you."

I left Amanda's apartment the next morning at a few minutes past eight, then drove downtown and parked on the street a half block from my office. Only two other businesses remained in the building, and I stepped from the blinding morning sun into the darkness between Millie's Tattoos and Piercings and Big Mac's Bail Bonds. At the end of the hall, I turned my back on the empty suite across from mine, unlocked my door, and pushed inside.

The place wasn't big-room enough for a desk, a couple of chairs and some filing cabinets—but I didn't need much. I beoted up my Macintosh, logged onto the Internet and found my favorite reverse directory. In less than five minutes, I had an address that matched the phone number I'd found on the back of Amanda's telephone directory.

I went home, showered and changed clothes. Then I drove to Gatesville and saw enough to realize that I couldn't take Englebert Givens without help

"Need your help again," I told Milite early that afternoon while we shared a take-out order of hot wings and fries in my office. Millard Wayne Trout-"Millie" because his family still called his grandfather "Millard"-operated the tattoo and piercing operation at the front of the building, and he picked up extra money by helping me

Lester Beeson, owner of Big Mac's Bail Bonds ever since a disgruntled client emptied a shotgun in Macdonald Pearson's face 27 years earber, and a steady client of mine for nearly as long, had given me a Polaroid of Givens, and I tossed it across my desk.

Millie picked it up. "He's a big guy."
"The entire family's big." I said. My

cock twitched as I remembered the previous evening in Givers' sister's bed

"When?"

"First thing in the morning," I said.
"He's holed up in two-bedroom ranch
just off the highway. The place sits back
a ways, lots of windows. He can see us
coming. Maybe we can get there before
he wakes, take him in bed."

"Anyone else we need to watch for?"

"The phone's not in Givens' name, so expect someone else home when we get there."

Millie nodded his shaved and tattooed head, then he reached for another hot wing. What we were planning on doing required all the energy the two of us could muster

I thought we'd dine in."

Amanda said when I arrived at her apartment that evening. She wore a white gown, and when she stood between the light and me, I could see every figgle of flesh beneath the material. "In fact," she said, "I'm thinking we should skip ahead to dessert."

She took my hand and led me into the bedroom, where I shed my clothing and dimbed onto the bed. As I lay on my back, Amanda roiled over and onto me, straddling my chest.

"I can't stay all night," I said. "I have an early appointment."

She silenced me with a finger against my lips. "Don't talk," she whispered. "Just do."

Then she moved forward, covering my face with her pussy. Her thighs felt warm around my ears. I took the hint, stuck out my tongue and licked the entire length of her pussy slit. Her pussy lips swelled and become slick. Then I plunged my tongue between her fat cust lips and quickly found the swollen bud of her clit I sucked her clit between my teeth and held it as I teased it with my tongue.

As I tongue-fucked Amanda, I reached up under her gown and took hold of her heavy hooters. Her hard nipples pressed against my palms, and her soft tils overflowed my fingers as I massaged her massive mounds.

Soon, she started moving her hips, her pubic bone bouncing against my mose as she rode my face. She rode me hard and fast, and she came with a flood of pussy juice that dripped down my chin and my neck. Then she shid down the length of my body, grabbed

By Sidney M. Basil, Sexologist First of all, I would like to thank the editors of XL Gerls magazine for offering me this opportunity to share with its readers what my colleagues and I consider to be exciting and breakthrough discovertes in the field of sexual science

waifs.

But have

you ever wondered

why?

When we first began our study of the sexual prowess of large women-whom I will from now on refer to by the nonscientific but easily (dentifiable name "plumpers" as opposed to women who fit within the guidelines of the Standard Height and Weight

64 XL GIRLS

Tables for Women, we guestioned what the audience would nurs, whether male or female.

Our study, which was carried out at at the Foxahatchee Institute of Sex in Piensantville, Florida, took place over a two-year period and studied a test group of 100 women, equally divided between plumpers and "normal-sized" women from all races and walks of hie. We did not expect the results we received. However, at I shall now show, there was a valid impetus for the study. to be initiated, and our findings confirmed what had been suggested by earlier observations in this corner of the sexiological community:

L BACKGROUND

Psychological reasons why plump women are better in bed than thin women should be quite apparent to readers of XL Gerb magazine. As admirers of plumpers are aware, the big woman is often more eager to please her partner in bed because she has become so negatively impacted by society's expectations. Mainstream society values this women over plump women

and suggests that thin is beautiful while plump is ugly. Therefore, to overcome this perceived competitive disadvantage with their thinner peers, plumpers make more aggressive attempts at aexually satisfying their partners. As one plump subject in our test group said. "Maybe if I give him the best fuck of his life, he won't mind that I am fat "

Some of my colleagues in the mental health community have also suggested that plump women are better in bed than their thin counterparts because

they have been engaged m sexual activity so less frequently. Hence, their sexual hormones are more sensitive to stimulation-in layman s terms, they are homiesand they have not been worn down by the sexual process. As another one of the plumpers in our test group said, "I don't get dick as often as a thin bitch, so I want get it, I basically fuck the guy's brains out."

So, as I have just pointed out, the psychological reasons plump women are better in bed than thin women are

many. But never, to my knowledge, have the physiological and biological empactors been considered

IL THE IMPETUS FOR THIS STUDY.

Over the past several years, tremendous advances have been made in the medical community's acceptance of high-fat, low-carbohydrate diets, particularly those of Dr. Atkins and the extremely popular South Beach Diet. It is now accepted by many in the medical community that a diet high in proteins and low in carbohydrates can lead. to weight loss and reduced cholesterol. The weight loss comes from increased. metabolism and forcing the body into a fat-burning state of ketonis. In short, the body becomes a fat-burning machine

What we found most intriguing about the Atkins Diet, however, was a little-known warning from the late Dr. Atteins against a diet that is high in protein but low in fat. In other words, he urges dieters to avoid regularly eating chicken breast without skin and salads

with low-fat dressings because the body will resist ketons. On the Atkins Diet and other high-protein, low-carbohydrate diets, the body needs fat to propel saelf sato the fat-burning mode.

What this suggested to us is that the body goes into a higher rate of metabolic arousal when it has more fat to burn, and that fat stored by the body can be transferred into energy Therefore, if fat could be used by the body to reduce weight, could it also be used by the body for substantally encreased applied energy?

Our test group of plumpers and thin chicks was put through rugged it more. And when I do testing which included five fuck sessions.

III RESEARCH PARAMETERS

Using the standard Height & Weight Table For Women, we assembled a test group of 100 women. Half of these women fell within the recommended weights for women of their height and body type (for example, a 5'4" woman with a medium frame should weigh between 124 and 138 pounds). The other half of our test group weighed at least 20% more than the high-end of the recommended weight (for example, a

5'4" woman with a medium frame had to weigh at least 165 pounds; a 5'6". women with a large frame had to weigh at least 190 pounds).

For our study, each woman completed five sessions of sexual intercourse with a partner of their choosing, during which their bodies were monitored for various indicators. They also underwent various medical tests before and after the sex act was carned out. These medical tests were also administered during the following situations:

- While the subjects were viewing: an erotic film and reading an erotic story tailored to women.
- When in the presence of a clothed. person who fit their description of what they found sexually desirable.
- 3. After a prolonged period-five or more days-of abstention from sexual activity, including masturbation.

All of the testing was carried out at the Foxahatchee Institute for Sex. which, in addition to being equipped with laboratory areas typical of a place

of scientific research, was equipped with six bedrooms that had been decorated to provide our test group with ultimum comfort and sexual stimulation. The sexual acts were monitored. behand a two-way muttor so that we could match the physiological responses of the women with what they were doing at the time

basic types of fat that the body derives from food (cholesterol, saturated fat and monounsaturated fat are the others). All polyunsaturated fats, including the Omega-3s, have been increasingly recognized as important to human health.

Eating too many foods rich in saturated fats has been associated with the development was the major those women who fall eases, including heart disease and even concer. Polyunsaturated fatty acids, however, are actually good for you Omega-3s fall into this

category, along with Otnega-6s, another type of polyunsaturated fatty acids found in grains, most plant-based oils, poultry and eggs

One of the most exciting results of our research was the discovery of the Omega-7D acid, which was secreted exchasively by women who fell into the plus-20% weight category. Also, the Omega-7D acid was secreted only durme the sexual act. Although we were unable to determine the exact source of Omega-7D, or even whether it exists beyond all reasonable doubt, we believe that it is stimulated and manufactured by a combination of a plumper's stored fat and the unique makeup of her sexual body fluids (which I shall get into later).

Secretion of Ornega 7D was non-existent in women who fell within the guidelines of the standard height and

weight chart for women and began encreasing in women whose weight was at least 20% above the guidelines. Secretion increased up to the 30%-plus watermark, then leveled off. In other words, a woman who is 70% above the weight guidelines secretes no more Omega-7D than a woman who is 30% above the weight guidelines.

If there was one disappointing aspect of this discovery, it was that we had no test subjects who fell between the 1%-19% range. Therefore, we had no way. of determining at what point the body begins manufacturing Omega-7D However the following finding is, in my opening, incontrovertibly true: Omega-7D was secreted only during

> moments of high arousal, and the higher the level of arousal, the more elevated Omega-7D production. Therefore, lt follows, because no other factors existed for the production of Omega-7D, that this unique fatty acid actually propels and accelerates a plumper woman's level of sexual excitement

within the height and weight guildernes, the study of Omega-7D is in to primitive stages and there is no way to either artificially manufacture

it or transfer it from the body of a "phemper" woman to a thin woman. Omega-7D in not available at supermarkets or health-food stores and probably never will be.

While the discovery of Omega-7D was notable and shocking, the two other primary findings from our research were not quite as surprising. They are:

 In 87% of the test cases, the fat in a. phimper's body was converted into sexual energy. The amount of energy produced increased proportionally in women up to and including the plus-50% category, then leveled off. Pat-toesvergy production was present in the "thin" woman in according with the proportion of her weight. Because phimper women are less active in other area of life-for example, they do less

exercise-they have substanually more stored energy to be transferred into sexual energy.

2. The elevated blood-sugar levels of phamper women result in increased creativity and, therefore, a more heightened level of arousal and willingness to experiment sexually. We also found increased sugar levels in the plumper women's sexual body shuds, i.e., her "pussy naces."

I shall address these findings one at a time. The finding regarding conversion of body fat into sexual energy was not surprising because of the observations we had already made with regards to the Atkins Diet. Fat equals energy. When the fat isn't burned in other ways, as through the body's natural metabolism or through exercise, it is stored up and utilized when the body is engaged in some other physical endeavor; i.e., sexual activity (fucking, sucking, etc.).

Our finding was confirmed by an auxiliary study of several plumper women in the test group who reported that they engaged daily in physical exercise such as jogging, weight lifting, aerobics or another sport. Our tests indicated that these women did not exhibit heightened sexual arousal nor increased sexual energy during their intercourse sessions; i.e., fucking and sucking. In each case, they exhibited no more sexual energy, creativity or interest than women in the thin test group

In his book Dr. Atkin' Diet Revolution, Atkins points out that the body has difficulty burning proteins and carbohydrates at the same time. If confronted with the task of burning proteins and carbohydrates, the body will burn the proteins first and store the carbohydrates, resulting in weight gain.

A similar scenario is at work here: The body has the choice of using its energy in several ways; in this case, for exercise or for sex. A woman who falls within the guidelines of the Height & Weight Table For Women has most likely chosen to use her energy for exercise. In addition, she most likely has a heightened rate of metabolism, which must be fueled by the fat in her body. In layman's terms, a thin woman uses all of her available energy burning the fat in her body, whether through exercise

hold of my cock and held it steady as she empaled herself on it. I thrust my hips, driving up and into Amanda as she rode my cock. She leaned forward and rested her belty on mine, then leaned forward some more so that her heavy tits lay on my chest, I grabbed her ass and held on tight as I pumped up into her and she slammed down against me

This time, Amanda screamed when she came, and she collapsed on top of me Another thrust or two and I came, firing a thick wad of cum deep inside Amanda's pussy. I wrapped my arms. around her and held onto her as we solled to the side. Although I said nothing. I worried that we might be spending our last night together. I wanted to be sure it was memorable, so as soon as my cock felt up to it. I facked her again. this time even more passionately and vigorously then before. I paid special attention to her tits this time. I wanted to make sure that my mind and cock remembered them forever, and I wanted to make sure that she would remember me fondly

When we were done, I was sure I'd accompashed my goal on both ends.

arrived at dawn. Milite exited the car half a mile from Givens' place, and I gave him time to work his way around to the back of the house. Then I drove up the long driveway and stopped on the hard-packed durt in front of the house. I pointed up the steps and across the porch

I kicked in the front door, expecting Givens to head out the back as soon as he heard the noise. He didn't. He charged naked from the bedroom, tacking me in the living room and sending the two of us out the front door and onto the porch. I gave up four inches and more than a hundred pounds to him, and I wasn't nearly as angry.

When we finally stopped rolling, I lay flat on my back with Givens stradding me, his heavy legs pinning my arms to the porch. He drew back his hand, and I twisted my head to the side as his first punch shook the floor beside my head. As he drew his flat back to punch me again, Millie stepped onto the porch and laid him out with a twoby four across the side of his head.

Milhe rolled Givers' unconscious body off of me, and I stood, rubbing the small of my back and hoping I didn't have any permanent damage. I looked up to find a skinny brunette, wearing nothing but a loose-fitting T-shirt, standing in the doorway.

"This a problem?" I asked.

She stepped ande and pushed the door closed.

"Guess not," Milke said.

A moment later, the door opened again, and an armicold of men's clothing showered us.

We both broke a sweat hefung the unconscious fugative out the back seat of my Chevy, and within the hour, the Waco police had taken custody of Givens. I returned the Polaroid to Lester and collected my money, I split it with Milke a few minutes later, then went out for breakfast taces and fined potatoes. I ran some errands, including a stop at Gloria's beauty parior to thank her for connecting me with Givens' sister, and I didn't return to my office until mid-afternoon.

I'd barely settled in when my office door opened and Amanda stepped in. She stood with her arms folded under her huge breasts.

"You're a bounty hunter," she said.

I didn't deny it. Instead, I said, "When one of Lester's dients namps bail, he asks me to bring the guy back. That's my job."

"My brother?"
"Just business."

"Doesn't kook like just business," she said. "It took eight stitches to sew up his head."

I shrugged.

"I don't know how you did it, but you used me to find him, didn't you?"

"Does it matter?"

She looked at the for a long time then said, "My grandmother posted bond for Englebert. Put up her cemetery plot as collateral. If Bert didn't come back, somebody else would be spending eternity text to my grandfather. My brother deserves whatever he gets."

Amanda unforded her arms and stepped to the door After she'd opened it, she turned back. "I have a new black teddy." she said. "I'll stip into it at 10. If I mean anything to you, you'll be there to take it off."

I smiled as the door closed behind Amanda. This time when I pumped her, it wouldn't be for information. [1]

SCIENTIFIC PROOF!

Continued from page 70

or natural metabolism. There is nothing left over for sex

But a plumper woman, especially one in the plus 20% category, can use her stored fat to create energy for secual activity. In layman's terms, a plumper will fuck harder than a thin woman because she has the stored energy to do so. As one of the subjects in our plus 20% category said, "Pucking and sucking cock is my exercise, It's the only thing I do, so I have a lot of energy for it."

Of course, this finding must come with a caveat. At some point, a woman may reach a level of obesity which is dangerous to her health and limits her mobility. That point seems to be above the plus-50% level. A woman should not put on weight, or be encouraged to put on weight, or decrease her level of exercise simply to increase her sexual energy. She should first consult a doctor; several health risks accompany significant weight gain, and these risks must be measured against the sexual pleasure gained. Notice, too, the use of the word "plumper" in this study. We did not attempt to study women who

are unhealthily obese out of fear that any positive sexual findings would encourage them to remain obese.

That being said, it is an established medical fact that heavier people have elevated blood-sugar levels. Our study showed that as long as the blood-sugar level isn't elevated to a dangerous number, a plumper woman's sexual

creativity and arousal increases.

The plumpers in our test group were more likely than the thin women to engage in unusual and creative sexual practices, such as allowing their asses to get fucked, licking and sucking of testicles, sucking cock that just came out of their pussies, face-sitting, double dildo insertion, asse-reaming and more.

Up until a certain point, increased blood-sugar levels resulted in increased creativity and promismity.

The discovery of increased sugar levels in the plumper women's body fluids was discovered quite by accident when a member of my research team, excited by one of the plumper's emberant pussy-and-ass-fucking session, exclaimed, "Just for the hell of it, let's test her cunt puices."

"For what?" I asked.

He shrugged, "For sugar?"

Although I suspected that his intentions were purely sexual, I allowed him to do as he asked. And, indeed, much to our astomehment, the woman's pussy juices did exhibit an elevated sugar level. This led us to measure the sugar level of all of the members of our test group, and we found that the levels in pussy puce increase in proportion to body weight.

Of course, a side-effect of this is that a plumper woman should have a sweeter pusey than a thin woman.

V. CONCLUSION

Although it is possible and not unlikely for a thin woman to be better, more creative and more energetic in bed than a plumper, in most cases, according to our research, the plumper will provide the more satisfying sexual experience. Add the siready-existing psychological evidence, and the sexual prowers of plumpers over thin woman is obvious and incontrovertible.

However, the level of sexual prowess evens off at a certain point of weight gain, and, as I said before, a woman who is extremely obese will expensive health risks without sexual benefits. As always, women planning to gain or lose weight should consult their doctors before doing so. Also, our study of women does not correlate to men.

But men who are looking for the ultimate sexual experience should look no further than a woman who is in the plus-XI% range. Because of physiological and psychological reasons, she is sure to be a better sexual partner than a thin woman.

Editor's note: The findings in this report are completely unsubstantiated, fictional and should not be considered as established fact by readers. They are meant only to stimulate the judding process and increase appreciation of the sexuality of the plumper woman. However, all of it makes perfect sense to us.

The job doesn't involve fucking onstage. But it does involve fucking backstage.

Kat, who fucked and sucked in XL Girts #83 upon the release of XL Xtra #2 (available on page 16 of the Xtra section), is back doing what she does best in Valuptuous Xtra #8 (available on page 98 of the main mag). When the scene opens, she's wearing lavender boots, a babydoil nightle and a sexy flacy bra. She grinds her big ass and juggles her precious tits into the camera. Then she gives Mr. Manager a tit-fuck and blow job he won't soon forget. Then it's time to fuck if itst doggle-style, then reverse-cowgirl. Kat's F-cup hangers bounce all over the place. She screams like she's getting the fucking of her life.

FACE IT, PLUMPER LOVERS: YOUR VIDEO STORE COESN'T HAVE WHAT YOU'RE LOOKING FOR. YOU NEED TO SEE XL GIRLS TAKING THE HIGH HARD ONE. THE XL XTRA SERIES DELIVERS.

The release of XL Xtra #1 in 2002 was a watershed event in plumper history. Finally, we had the opportunity to watch real all-natural super-stacked and super-packed babes in no-holes-barred, super-raunchy fucking-and-sucking action. This video, which has since been released on DVD featured some true XL Girls heavyweights, like Samantha. Kerriann, the regendary Debi Lee. Paige Pin-Up and Jammin, Jennie. The you-are-there camera angles in the Samantha scene put us in the middle of the action.

Once was not enough, But what could we do for an encore? How about some ass-fucking and one of our biggest plumpers ever in XL X7RA #2?

Having established that, yes, there is a huge audience of men who are hungry to see big girls fucking and sucking on video, we set about to produce the sequel. And XL Xtra #2 turned out to be a smash hit. Lilith one of the homiest women we've ever known, enjoyed a hard-driving assitucking. Wonder Tracy, who at 240 pounds is one of the true super-piumpers of XL Girls history engaged in an enthusiastic fuck session that rattied the walls of our studio. Plus, exotic Anna Live implementation on the original.

In all XL Xtra #2 was a more-than-worthy follow-up to the original.

Devise Davies fucks on camera for the first time, And our first girl-girl,

That's what XL Xtra #3 had to offer, plus Samantha in her raunchiest boy-girl, Nikki Perez and Mandy Casa in their debut hardcore scenes and lots more of pretty, approachable Paige Plenty, Brit-titter Denise Davies got her hands on a big one for her XXX debut, And Lou Lou and Sweety filled the screen with voluptuous flesh in a truly cockhardening lit-to-tit, ass-to-ass-Want to order XL Xtra #1, XL Xtra #2 or XL Xtra #3...or all three? Just turn the page. They're all available on DVD and video, and they're all guaranteed to please.
